

Bedrooms | Kitchens | Studies

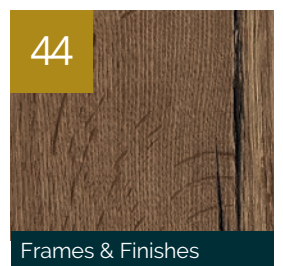

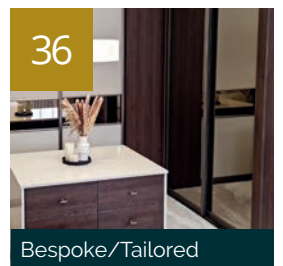

The background of the entire page is a dark teal color with a repeating pattern of stylized floral outlines in a lighter teal shade. Several flowers and buds are highlighted with a solid yellow color. One flower is in the upper left, another bud is in the middle right, and a flower is in the lower left. A single leaf is highlighted in yellow at the bottom right.

# Welcome To Paramount

Here at Paramount Sliding Doors we have been operating as a family run business since 1993 and we pride ourselves on creating high quality, bespoke sliding door wardrobes and storage solutions for our customers.

We cover the UK for the supply of sliding doors and interiors and full fitting and installation from Bristol to West Wales.

We produce all of our sliding doors at our factory in Abercynon, Rhondda Cynon Taff which means that we can produce a huge variety of sliding doors and storage solutions from our extensive range of styles, materials and colours for you to choose from. This will help us to personalise your project, and where possible, match your existing décor.

Yours Sincerely

*Andrew Parsell*

# Why Choose Paramount?

Whether you choose Paramount for our first class design work, huge choice, tailored products, UK manufacturing or our care and dedication, you'll be happy that you made the choice every time you slide a door and use your perfect storage solution.

1

## Creative Design & Computer Rendered Visuals

It takes experience and insight to design the perfect interior. Together we'll help you do just that and complete a project to be proud of.

With modern technology we can help you visualise how the design will look. A great time to make changes and get it 'just right'.

2

## Manufactured by Hand in Wales

It's always been important to us that you know your new interior isn't mass-produced or imported.

Instead our craftspeople create beautifully made, stunning looking interiors at our Welsh workshop that you'll love day after day.

*“Paramount have just been absolutely brilliant. Can’t fault them at all. Really pleased.”*

3

## Tailored to Your Needs & Specifications

When the usual doesn't quite work for you, or if the space you have is unusual then talk to us about our tailored solutions.

With our years of experience and countless bespoke projects under our belts, we can really make your dream space perfect.

4

## Design to Delivery to Aftercare

We pride ourselves on how we look after you. We can help guide you through the design process to the very end of the build.

But we don't stop there, we ensure you are perfectly happy and are here to support you if you should need us.

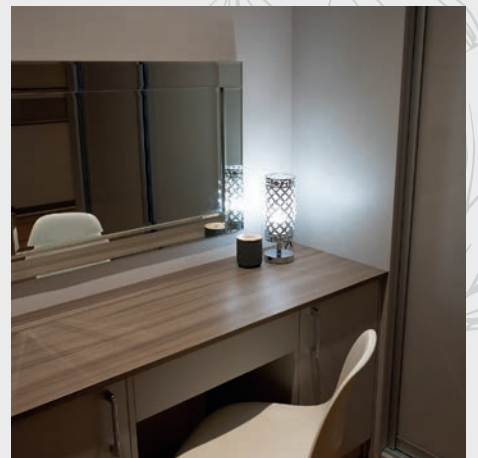

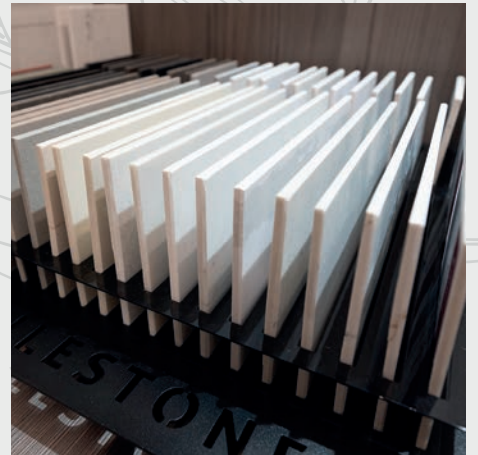

# Our Showroom is Designed to Help You Find Your Perfect Solution

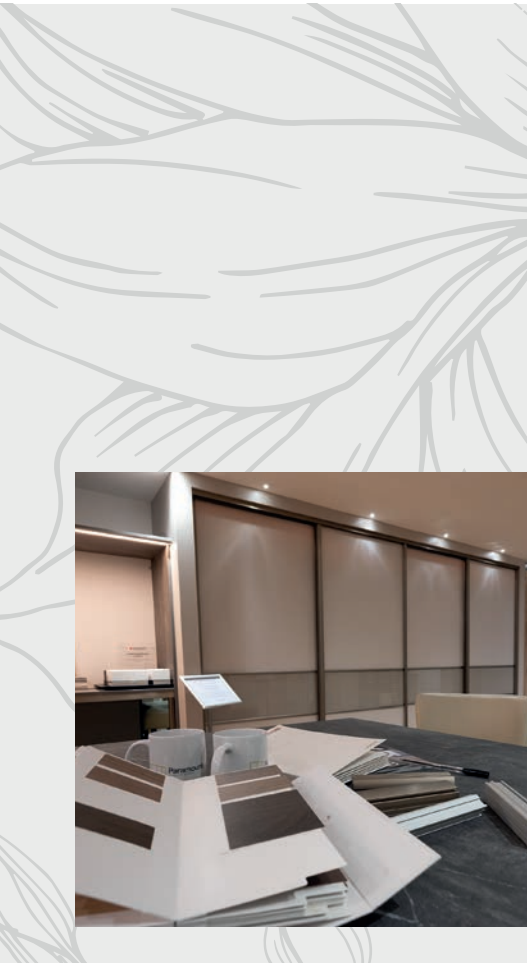

A key part to how we work with you is to understand exactly what you need, both for the space you have and the lifestyle you lead.

We can help you choose from a comprehensive range of styles, colours, textures along with suggestions to get the most from your bespoke solution. We can often offer a full computer render and be as involved in the design as you wish. It all starts at our showroom. Book an appointment and you'll be using your new storage perhaps sooner than you think.

We use high quality, proven products from Silestone, Corian and LG HI-MACS in all our builds.

### Time to Choose

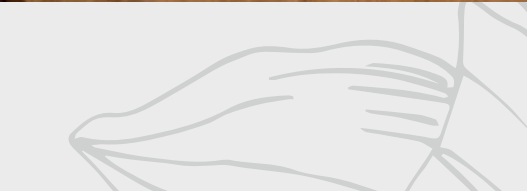

We've created our showroom to highlight our most popular ranges, but we have a huge range of swatches and material choices to see, and a range of great ideas for your perfect interior; from lighting to electronic safes, jewellery drawers and creative storage options.

CORIAN®

SILESTONE®

HI·MACS

# Our Workshop Produces the Highest Quality Product

We are proud to build almost all aspects of your new storage system here in the UK. We of course offer a wide range of options some of which are pre-built, but you can rest assured that you are supporting a team of British craftspeople.

Our dedicated team are experienced, talented, and dedicated to both your project and the products we craft. Our outstanding team are backed by modern precision machinery and good old fashioned creativity.

### Finishes and Edging

Our latest, cutting edge machinery ensures perfect finishes when cutting or edging. We use high quality Egger products for interiors and edging which ensures a hardwearing and great looking finish that matches perfectly throughout.

### Tradition and Modernity

We run a clean workshop and are proud of our creative talented team of craftspeople. We have a raft of traditional skills but we also make the very best use of precision machinery and high quality materials to give you the very best finish.

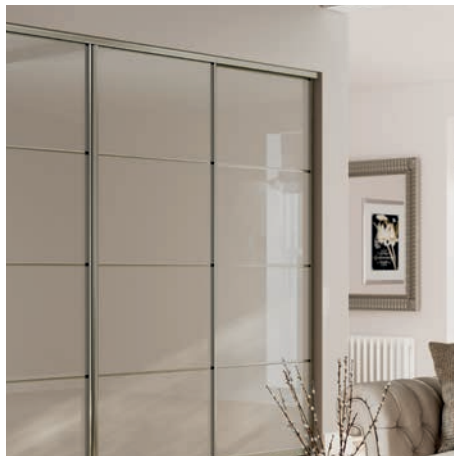

# Bedroom Ranges

Sliding, hinged, angled, bespoke; whatever you need, we've got it covered. From style statements to practical designs at Paramount Interiors you'll find what you need but more importantly, want.

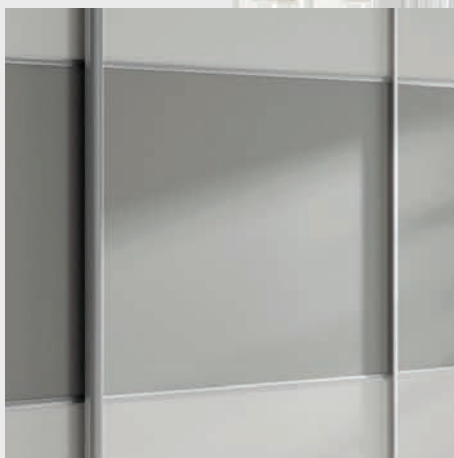

Be inspired by our selection of bedroom ranges over the next section of our new brochure. These are simply a selection of our most popular products. If there's something different you need, or you want to discover something truly different, then let's chat. We look forward to helping you design and build your perfect storage solution.

# Sliding Doors

Our most popular installation, sliding doors are contemporary but also practical in almost all spaces.

Over the following pages are just a part of our range, this selection represents our most popular styles and designs. If you don't see exactly what you're after, get in touch and we'll explain just how wide a choice is available to you.

## Prestige

Satin Chalk Grey Glass/  
Storm Grey Glass

With our Prestige range we wanted to offer you something more than just practical, we wanted modern style front and centre and something to make a real statement in your home.

Mix modern and classic materials, colours and frame styles to create something you'll love. Once you then add the vast range of interior fittings, your options are virtually limitless. But with our design team we can make it all manageable and enjoyable. Let's get started...

# Prestige

Pasadena Pine/  
Stone Grey

Wow! What a powerful look. The Pasadena Pine woodgrain really adds a stunning lift to the look of the subtle Stone Grey.

Add an Aluminium frame for a frame that fits the design perfectly, or a bronze frame to give subtle, classy vibe. Once you're finished with the outside, you can then spec your perfect interior.

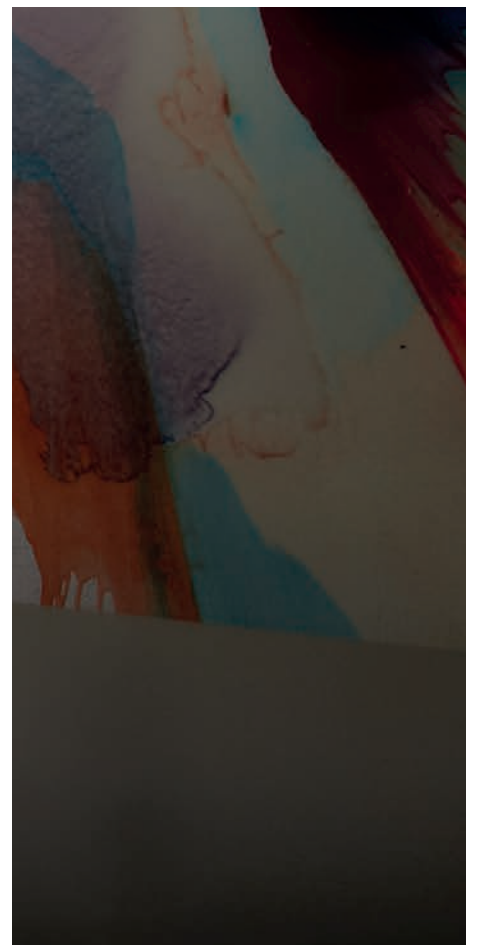

# Prestige

## Pure White Glass

The Pure White Glass colourway is timeless, clean, contemporary and simply stunning.

Pure White Glass also helps create a feeling of space and lends itself to a room with a feature wall or punchy paint scheme. The options are almost endless.

# Prestige

## Stone Grey Glass

An absolute classic and one of our most popular choices. The subtle colour of the Stone Grey Gloss blends into your decor. It's a statement!

This colour suits our bronze frame material perfectly for a truly elegant solution that works in modern or more mid-century decor settings.

# Prestige

Grey Metal Glass/  
Pure White Glass

If you're looking for a colourway that will stand the test of time and sit outside the changes in fashion, then you may have just found it.

Beautifully calming grey, a clean flash of white glass, and carefully highlighted with a subtle bronze frame combine to create a modern masterpiece. Probably our most popular combination by some way...

POPULAR  
CHOICE

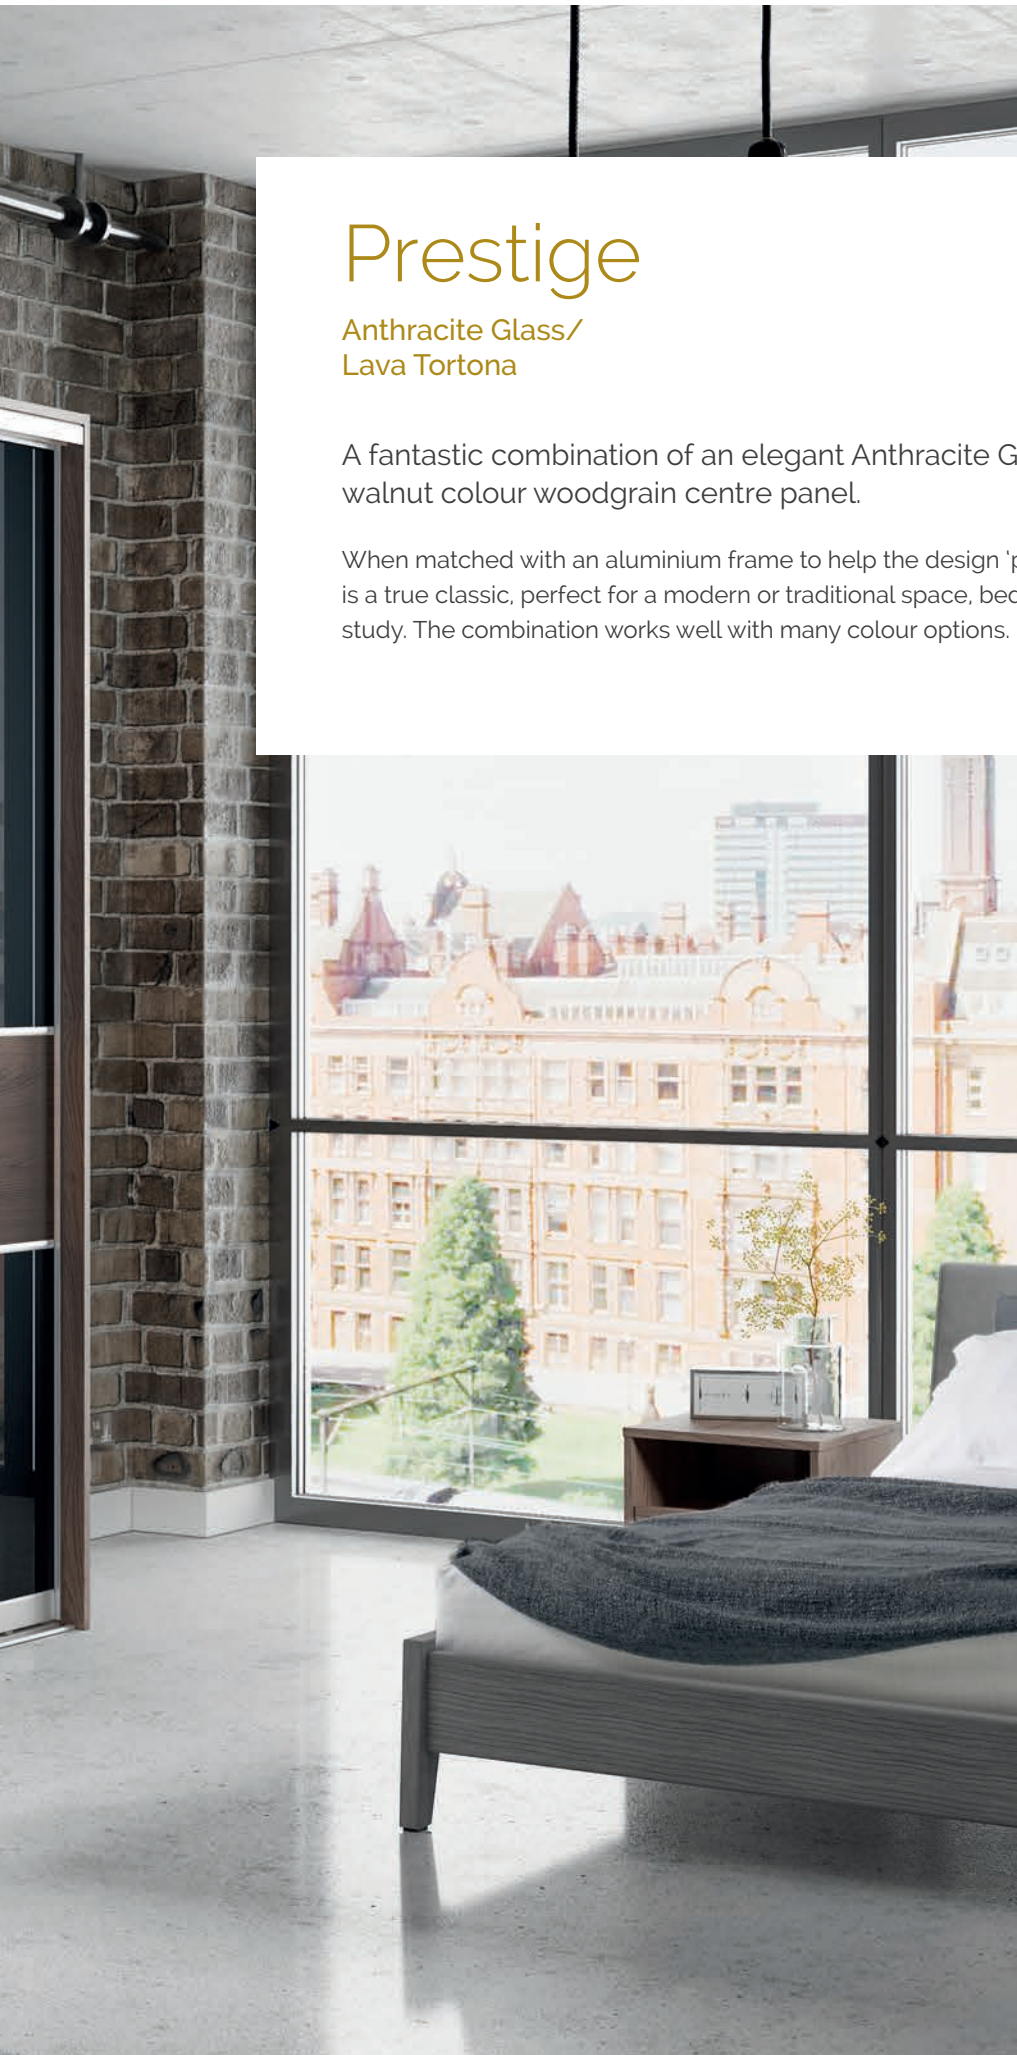

# Prestige

Anthracite Glass/  
Lava Tortona

A fantastic combination of an elegant Anthracite Glass with a classic walnut colour woodgrain centre panel.

When matched with an aluminium frame to help the design 'pop' this combination is a true classic, perfect for a modern or traditional space, bedroom, living room or study. The combination works well with many colour options.

# Hinged Doors

For a more traditional but stylish installation, hinged doors really fit the bill. A wide selection of colours are available to suit all homes.

As with our sliding doors, the following pages are just a part of our full range; this selection represents our most popular design and a choice of popular colours. If you don't see exactly what you're after, get in touch and we'll explain just how wide a choice is available to you.

## Fenwick

Fenwick oozes classic vibes with a lavish broad style design and a beautifully deep embossed wood grain finish. A modern take on the traditional shaker style.

But Fenwick isn't just stylish, it's functional too. Strong dowelled construction, 2mm ABS end caps and chamfered edging, Fenwick is durable to stand the test of time. Choose your colour and handles from our large range (see overleaf).

# Angled Doors / Understairs

Many homes have some unusual spaces or incursion from the roof. That's where our angled doors are perfect.

Made to the same exacting standards as our sliding doors, and with the same wide range of frames, colour, and layouts, angled doors are made to fit your space. Bespoke shaping means a fit and finish you'll be more than happy with, all made by our expert craftspeople.

White Grey Shaker

**JUST AN  
EXAMPLE**

# Loft Areas

Lofts can be exciting spaces and brilliant extensions to our living space, but they often come with more difficult layouts and measurements.

That's where we can help. We're expert at helping design outstanding solutions for unusual spaces. You don't have to settle for less, we can help create the same stunning, impactful statement storage regardless of the spaces you have available. Call or email us to get the ball rolling...

# Home Studies

Always a popular choice, home studies have become more important than ever before.

Why work in an 'OK' space when you could be working in a fully tailored space that's designed around you and your working needs. We can visualise the designs for you using computer renders so you'll see exactly what the final installation will look like. No more guesswork, just a great working environment.

# Bespoke/ Tailored Interiors

Unusual interiors need unusual solutions, and sometimes individuals just want that something different; we can help with both.

Our design team will work with you or your architect to design and build a fully tailored solution to your exact needs. We've helped many customers find the right solution to their specific requirements, and realise their dream space. You can be sure of the outcome as we have extensive experience and craft skills, plus we manufacture and tailor our projects at our workshop in Wales.

**Bespoke Installation**  
Gladstone Oak, Cashmere satin glass, with Bronze mirror

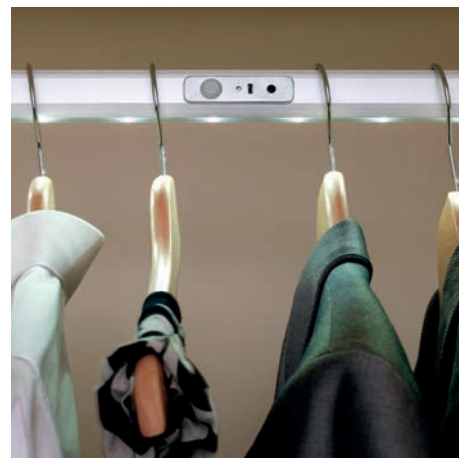

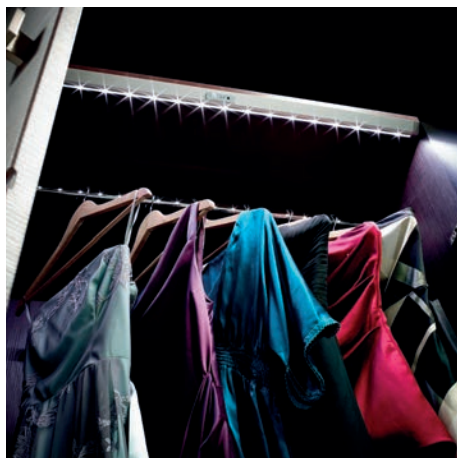

# Stunning Interiors

As beautiful and practical on the inside as it is on the outside. Tailored to your lifestyle.

Our interiors offer all the options you could possibly want, and a whole range you may never have imagined too. Soft close drawers, jewellery drawers, electronic safes, stunning lighting, rotating units, pull down rails, and a host of other striking, useful and luxurious options are open to you to choose.

We can help you design the right interior that works perfectly for you.

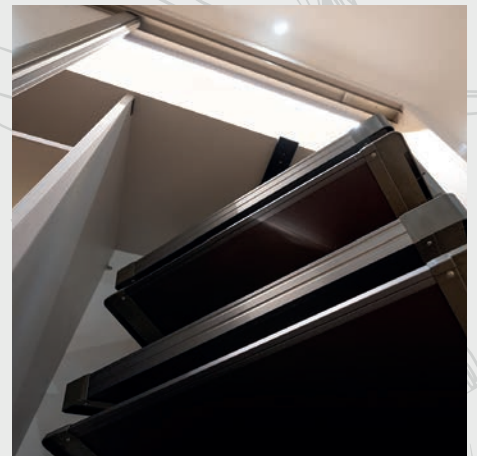

# Tailored Interiors

One of the most important parts of any storage design is the interior layout, and the elements that make up your solution.

It's why working with a manufacturer such as ourselves can make all the difference. We understand how our customers like to use their storage, and after discussion with yourselves we produce a recommended design solution that should suit your needs perfectly. Together we can produce something you'll love to live with and use for many years to come.

### Built Around You...

We've a range of great ideas for your perfect interior; from lighting to electronic safes, jewellery drawers and creative storage options. When we sit down together to look at the interior aspect of your system, we can help guide you through the options.

# Lighting & Controllers

We design our lighting to not only look great, highlight the beauty of the finish you've chosen for your storage, but also to suit your needs.

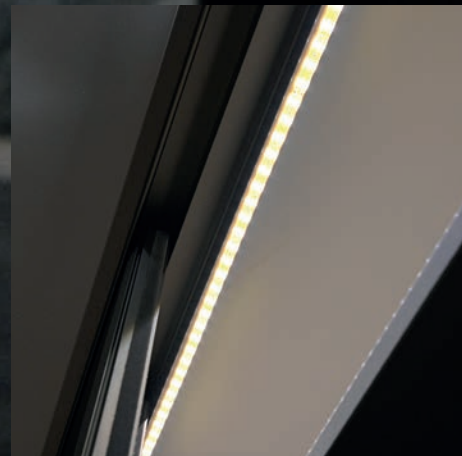

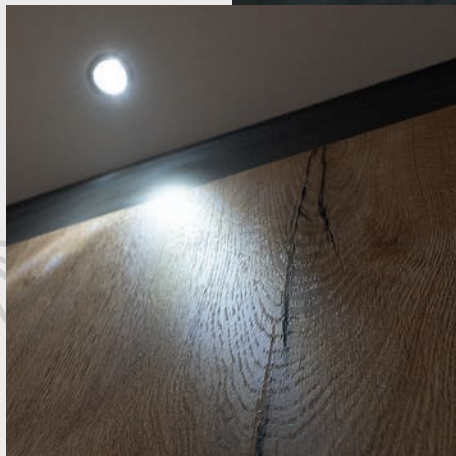

Sometimes we need bright lights to find what we're after, to check a colour, make sure our clothing is perfect for that night out. But at other times we want soothing, low level effects to make an inviting environment. We have a huge range of lighting options and many ways of controlling the effect you want.

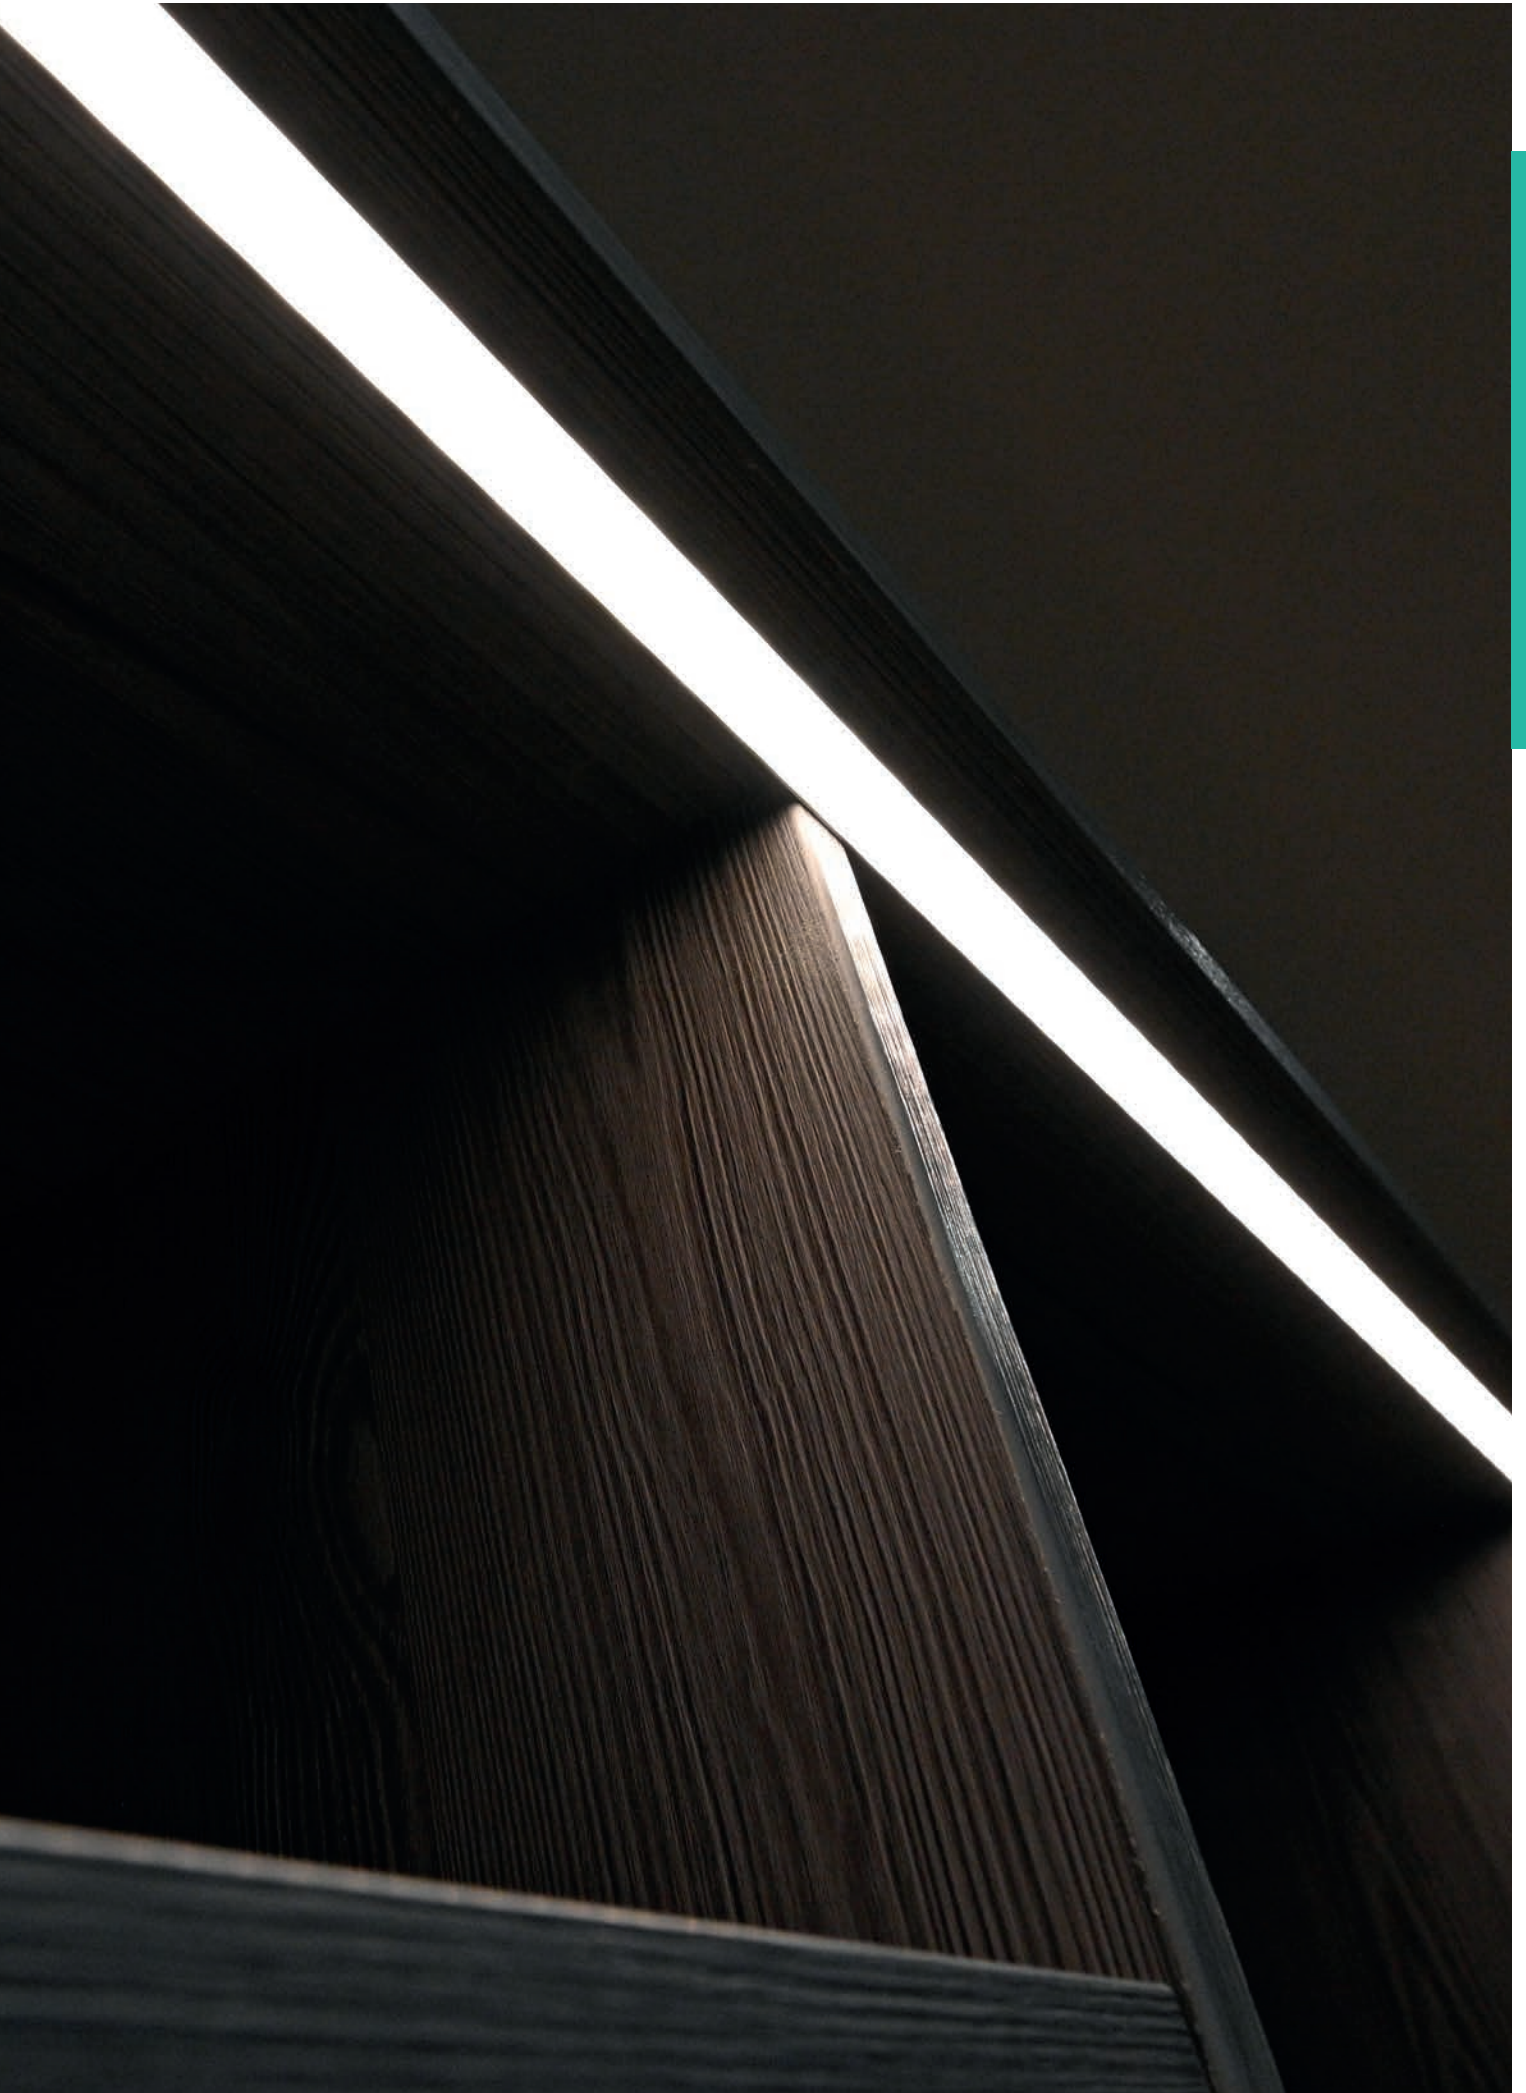

Also, we can bring technology and smart features to your project. Alexa, Apple, Android; we can help with all the major platforms.

Rightly, this is a big part of getting the design 'just so!'

# Frames & Finishes

Next to the door itself the frame is so important. We offer a range of options but the most popular are shown below.

All our sliding door systems are 100% aluminium. Other finishes are available and do ask about our soft closing doors! Most customers select one of two shapes, and then one of the two most popular colours shown below...

# How to Order

Once you're ready to think about ordering, we're here to guide you. There's no obligation at this stage, so please just get in touch...

1

Take a rough measurement of the space.

It doesn't have to be accurate, we'll do all that if you ask us to build your new furniture.

2

Have an idea of the style and storage you want.

Our brochure is packed with ideas, and we can help you with great design ideas.

3

Call us and make an appointment to visit our showroom.

There's no obligation and we'd love to show you the vast range available and options we have.

If you're ready to chat or book an appointment, call:

**01443 741 897**

Visit us on  
Facebook and Instagram

We can make visualising your dream room super simple.

You don't have to imagine it anymore or just try to choose from swatches. Now you can see it come to life with our bang up-to-date computer rendered design.

**Ask about our Articaad renders when you call or visit us.**
